ACT360 Solutions Announces Financial Results for First Quarter Ended December 31, 2008

February 27, 2009, Richmond, British Columbia — ACT360 Solutions Ltd. (the “Company” or “ACT360 Solutions”), a developer of Internet-based training and assessment applications, announced its interim financial results for the quarter ended December 31, 2008. Interim results were prepared by management in accordance with Canadian generally accepted accounting principles and are unaudited.

2009 first quarter highlights, compared with the same period in 2008, are as follows:

	Q1 2008	Q1 2009
Sales	\$124,534	\$63,560
Net Income (Loss)	(\$5,272)	(\$46,479)
Earnings (Loss) per share	(\$0.00)	(\$0.00)
Total Assets	\$395,492	\$368,261

For the three months ended December 31, 2008, the Company’s revenue decreased by 49% to \$63,560 compared to revenue of \$124,534 for the prior year period. The revenue decrease resulted primarily from lower custom training revenues and recurring hosting revenue in the quarter compared to the previous year. In particular, completion of a significant development project was delayed beyond the current quarter. The Company expects to complete and book the project in a subsequent quarter.

On a consolidated basis for the three months ended December 31, 2008, the Company had a net loss of \$46,479 on sales of \$63,560 compared to a loss of \$5,272 on sales of \$124,534 during the same period in 2007.

On a consolidated basis, expenses were \$111,151 in the first quarter ended December 31, 2008 compared to \$131,269 in the first quarter ended December 31, 2007.

The unaudited interim financial statements and Management Discussion and Analysis for the quarter ended December 31, 2008 are available at www.sedar.com.
